  - IMPLAN Economic Impact Modeling software
    - IMPLAN models the way tourism dollars are spent and re-spent in other sectors of the economy, generating waves of economic activity, called multiplier effects. The model uses national industry data and county-level economic data to generate a series of multipliers, which in turn estimate the total economic implications of economic activity.
    - Over 1,500 organizations use IMPLAN, including FEMA, EPA, Federal Reserve Bank, and Bureau of Land Management.
